TomTom WEBFLEET®

Always knowing where your vehicles are
Exceed expectations in service & increase productivity
**Cut cost by monitoring safe and green driving**

TomTom WEBFLEET® is the heart of the TomTom WORK Connected Navigation solutions for businesses of almost all sectors. The 24/7 hours available online service gives you powerful tools at your fingertips to manage your mobile workforce and increase the efficiency and productivity of your business.

The easy to use application always lets you know where your drivers are. You easily find the nearest available driver to a job. Assign orders within few clicks. Be always informed on the latest status of the jobs assigned to your staff in the field. Get all relevant information from your vehicles on the road in real time. No need to waste your time on paper sheets reports – TomTom WEBFLEET® offers a wide range of reports at any time, saving you and your drivers lots of time as it cuts out monotonous administration. Digital logbooks, working and driving time and many other reports are just one click away.

Monitor in real time, at a glance

The Dashboard gives you an immediate insight into the daily operations of your business. Track your fleet on easy-to-follow charts. The Dashboard gives you a visual representation of up to 15 Key Performance Indicators, so you can see trends emerging as they happen. You can set the standard for any KPI and see how an individual, a team or the business as a whole is measuring up. These results at a glance will help you act quickly and confidently to put things back on track.

TomTom WEBFLEET® is everything you need to manage your commercial vehicles online, allowing you to make reports, send and receive messages, coordinate movements and generally manage your field service operations seamlessly from the office.
